Item 5. Other Events

Trigen

-----

As previously reported, Trigen-Oklahoma City Energy Corporation (Trigen) sued Oklahoma Gas and Electric Company (OG&E) in the United States District Court, Western District of Oklahoma, Case No. CIV-96-1595M. Trigen alleged numerous causes of action, including monopolization of cooling services in violation of Section 2 of the Sherman Act. On December 21, 1998, the jury awarded Trigen in excess of \$30 million in actual and punitive damages. The entry of a judgment fixing the exact amount of damages is expected within the next few weeks. OG&E expects to appeal the decision. While OGE Energy cannot predict the outcome of any appeal, OGE Energy continues to believe that the ultimate resolution of this case will not have a material adverse effect on OGE Energy's consolidated financial position or results of operations.

Stock Buyback

-----

OGE Energy Corp. announced on December 23, 1998 that it has entered into an Advanced Share Repurchase Program with CIBC Oppenheimer Corp., under which OGE Energy will purchase 3 million shares of its common stock in January 1999.

The Advanced Share Repurchase Program follows the November 18, 1998 announcement that OGE Energy's board of directors approved the repurchase of up to six million shares during the next two years. The buyback, when completed, will reduce OGE Energy's total shares outstanding by about 7.4 percent, to 74.7 million shares from 80.7 million. All repurchased shares will be retired.

Under the terms of the Advanced Share Repurchase Program, OGE Energy will bear the risk of increases and the benefit of decreases in the price of the common shares until CIBC Oppenheimer has replaced the shares sold to OGE Energy. CIBC Oppenheimer may replace the shares through purchases on the open market or through privately negotiated transactions. OGE Energy may elect to settle its obligations under this arrangement with either cash or shares of its common stock.

## OKLAHOMA GAS &amp; ELECTRIC COMPANY SET TO APPEAL TODAY'S JURY VERDICT IN TRIGEN CASE

OKLAHOMA CITY - As previously announced, Trigen-Oklahoma City Energy Corporation (Trigen) sued Oklahoma Gas and Electric Company in the United States District Court, Western District of Oklahoma. Trigen alleged numerous causes of action, including monopolization of cooling services in violation of Section 2 of the Sherman Act. Earlier today, the jury awarded Trigen approximately \$30.5 million in actual and punitive damages.

"We're surprised and very disappointed by the verdict," said company spokesman Paul Renfrow. "We intend to seek reversal of the decision through the appellate process. While we cannot predict the outcome of any appeal, we continue to believe that the ultimate resolution of this case will not have a material adverse effect on OGE Energy's consolidated financial position or its results of operations."

OGE Energy Corp. (NYSE: OGE) is the parent of Oklahoma Gas and Electric Company, a regulated electric utility serving 700,000 customers in Oklahoma and western Arkansas. Enogex Inc., an unregulated natural gas gathering, processing and transportation company, is another OGE Energy subsidiary, with principal operations and pipelines in Oklahoma, Arkansas and Texas.

## OGE ENERGY CORP. ENTERS INTO ADVANCED SHARE REPURCHASE PROGRAM

OKLAHOMA CITY - OGE Energy Corp. (NYSE: OGE) today announced it has entered into an Advanced Share Repurchase Program with CIBC Oppenheimer Corp., under which OGE Energy will purchase 3 million shares of its common stock in January 1999.

The Advanced Share Repurchase Program follows the Nov. 18 announcement that OGE Energy's board of directors approved the repurchase of up to six million shares during the next two years. The buyback, when completed, will reduce OGE Energy's total shares outstanding by about 7.4 percent, to 74.7 million shares from 80.7 million. All repurchased shares will be retired.

Under the terms of the Advanced Share Repurchase Program, OGE Energy will share the risk of increases and the benefit of decreases in the price of the common shares until CIBC Oppenheimer has replaced the shares sold to OGE Energy. CIBC Oppenheimer may replace the shares through purchases on the open market or through privately negotiated transactions. OGE Energy may elect to settle its obligations under this arrangement with either cash or shares of its common stock.

The benefits of the Advanced Share Repurchase Program are two-fold, said Jim Hatfield, OGE Energy Corp. vice president and treasurer. "The Advanced Share Repurchase Program increases earnings-per-share in 1999 over other forms of repurchase programs because all 3 million shares will be retired in January 1999," Hatfield said. "Additionally, because we are locked into purchasing these shares, it signals our commitment to follow through."

OGE Energy is parent of OG&E Electric Services, a regulated electric utility serving 700,000 customers in Oklahoma and western Arkansas. OGE Energy also is parent of Enogex Inc., an unregulated natural gas gathering, processing and transportation company with principal operations and pipelines in Oklahoma, Arkansas and Texas.

Some of the matters discussed in this news release may contain forward-looking statements that are subject to certain risks, uncertainties, and assumptions. Actual results may vary materially. Factors that could cause actual results to differ materially include, but are not limited to: general economic conditions, including their impact on capital expenditures; business conditions in the energy industry; competitive factors; unusual weather; regulatory decisions and other risk factors listed in the Company's Form 10-K for the year ended December 31, 1997 and other factors described from time to time in the Company's reports to the Securities and Exchange Commission.
